

Air Pollution Drawing Challenge - 7 Days of Art & Action!

Introduction

Welcome to the 7-day Air Pollution Drawing Challenge! This fun and educational worksheet encourages kids to raise awareness about air pollution through drawing and simple eco-actions. Each day includes a drawing prompt and a tip for helping the planet.

Daily Drawing Prompts & Eco-Tips

Day	Drawing Prompt	Eco-Tip
1	Factory with smoke	Talk about clean energy like solar or wind power.
2	Earth wearing a face mask	Learn how air pollution affects our health.
3	Tree vs. polluted area	Plant a tree or care for a plant at home or school.
4	Kids biking or walking	Use less fuel - walk or bike for short distances.
5	City: before and after pollution	Imagine how your city would look with clean air.
6	Animals in polluted air	Talk about how pollution hurts animals too.
7	A clean and green future Earth	Share one promise you'll make to protect the planet.

Materials Needed

- Crayons, markers, or colored pencils
- Drawing paper or recycled cardboard
- Optional: glue, natural items like leaves or bottle caps for texture

Share Your Work!

- Share drawings on social media with hashtags: #AirPollutionDrawing #SaveTheEarth
- Host a mini art show at home, school, or community centers
- Talk about your drawing with friends and family

Bonus Tip

Turn your artwork into posters for Earth Day, classroom walls, or environmental clubs!

Air Pollution Drawing Challenge - 7 Days of Art & Action!

Let's Take Action Together!

- Reduce, Reuse, Recycle
- Conserve electricity - turn off lights when not in use
- Encourage family members to use public transport or carpool
