

Environmental Activities Worksheet

1. Air Pollution Drawing

Draw a clean place with trees and fresh air, and a polluted place with smoke and trash. Compare both and write down how we can reduce pollution.

2. Plant a Tree

Plant a tree in your school or neighborhood. Write down the name you gave it and how you will take care of it.

3. Recycling Challenge

Track how much plastic, paper, and glass you recycle this week. Make a chart.

4. Nature Walk

Go on a walk and observe plants and animals. Draw or write about what you saw.

5. Eco-Friendly Competitions

Join or organize a poster-making, essay, or debate competition on saving the Earth.

6. Energy-Saving Challenge

List 3 ways you saved energy this week at home or in school.

7. Science Project

Make a mini science project (solar oven, windmill, or eco-friendly product) and describe it.
