

Toolkit: How to Fight Point Source Pollution in India

Why This Toolkit?

Point source pollution in India is a serious threat to our rivers, lakes, and public health. This toolkit gives you quick access to powerful resources so you can report, monitor, or take action. Whether you are a citizen, student, RWA member, or local leader these tools are for you.

Helpful Tools to Fight Point Source Pollution

CPCB Grievance Portal

Use: Report illegal waste discharge from factories

Link: <https://cpcb.nic.in/grievance-redressal/>

Swachhata App
